To Whom it may Concern,

This letter is a customer satisfaction and a personal recommendation letter for GEBCO Construction. We had our house remodeled in 1992. We added 1500 square feet and a new garage. Mike Gebel who owns Gebco Construction did the entire job. His prices were competitive and his work was outstanding. Mike and all the employee's of Gebco were professional and trustworthy. They did the job on time and within budget.

Everyone has a horror story about remodeling and their contractor but I must say that Gebco was very professional and would use them again. I highly recommend them for any size project from remodeling a bathroom or kitchen to building a brand new house.

Sincerely,

John F. Zolezzi
