Dear Mike:

Carol and I are extremely satisfied with the expert design and construction of our new room, attached decking, the skylight in the front entry way and all the additional work you did for us. It is a job well done and something we can be proud of for years to come.

Please do not hesitate to use our name as a reference at any point in time. Please encourage anyone seeking your services to contact us and we will be more than proud to not only give a reference on the telephone, but exhibit your work as well.

Thank you very much for an overall excellent job which consisted of quality design and construction.

Sincerely,

A

Lewin
